

# Asbestos can be anywhere in homes built before 1990

1

## Think ahead

Is the home built before 1990? Asbestos was used in over 3000 building products so there are many places it can be found.

2

## Plan ahead

Asbestos is dangerous when disturbed so you shouldn't remove it by yourself. Making a contingency plan will avoid delays and cost blow outs.

3

## Get a licensed asbestos professional

They will provide advice on how to protect everyone's health and help you to proceed safely.

## Be asbestos ready
