

Asbestos can be anywhere in homes built before 1990

1

Think ahead

Is your home built before 1990? You can't tell if materials contain asbestos just by looking at them.

2

Plan ahead

Asbestos is dangerous when disturbed, so you shouldn't remove asbestos yourself. Planning ahead will avoid delays and cost blow outs.

3

Get a professional

A licensed asbestos professional will provide advice and help you to proceed safely.

Be asbestos ready
